

Huawei Switch Optical Module Installation

Overview

S110, S220, S310, S530, and S620 Series Switches Installing an Optical Module 8 Installing an Optical Module Context This section describes how to install an optical module. The method used to install a copper transceiver module is the same, except that the copper transceiver module connects to a network cable instead of optical fibers. In the switching field, HUAWEI has accumulated a large number of industry-leading intellectual property rights and patents, can provide hundreds of switch products from core to access. HUAWEI S5700-24TP-SI (AC) switch is one of the more popular products. DANGER Never look directly into an optical module or the ends of optical. HUAWEI S5700-24TP-SI-AC is a Gigabit Ethernet switch, the application layer is three layers, switch type is a cassette switch. Size (width x depth x height) 442mm×420mm×43. 9Kg, backplane bandwidth is 256Gbps, internal storage is 256MB. To avoid component damage caused by improper.
