

Installation cost of galvanized cable trays

Overview

Important: Installation costs can account for 30–50% of the total cable tray system expense. Factors such as ceiling height, accessibility, number of bends, and coordination with other trades significantly affect labor time and pricing. Costs vary based on tray material (steel, aluminum, or fiberglass), size, design (ladder or solid bottom), and installation complexity. Additional elements like supports, connectors, and brackets. The average cable tray price per meter ranges from \$2 to \$25, depending on material, type, size, and surface finish. But the actual price is the cash outlay to the workers to assemble the parts. We want to improve this website so we need your help. That number matters, but it's rarely the one that decides whether a project stays within budget.
