

## Integrated Cable Management System Cold Aisle Intelligent Manufacturer

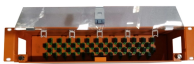

## Integrated Cable Management System Cold Aisle Intelligent Manufa

What Makes the SmartAisle™ Offering Unique? Imagine the advantages of an intelligent, integrated infrastructure with all the capabilities you need to achieve your IT objectives.

Following a collaborative, customer-driven approach, we provide the best containment options for each project. Whether ceiling hung or integrated with aisle structure, our containment solutions are ...

Full-depth DCF rack maximize space utilization and allows you to add any type of IT or networking equipment and simplify cable management with tool ...

Intelligent Modular Data Center featuring Hot/Cold Aisle Containment, Modular UPS, and 20-50KW Cooling Capacity for efficient server room management.

We provide the best solution to eliminate hot and cold air from mixing between aisles regardless of rack configuration and other design challenges. Whether it's live environment or new construction, ...

The SmartAisle offering optimizes infrastructure deployment and management with an intelligent row-based system that integrates data center racks, power, row cooling, aisle containment, monitoring ...

Cool Shield™ products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

APC NetShelter Aisle Containment Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, row or room level. Intelligent air containment ...

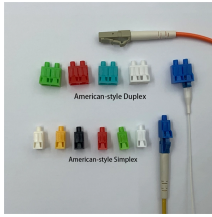

AZE's hot and cold aisle containment systems are your solution. They separate cold air being supplied to your equipment from hot equipment exhaust air and enable greater cooling efficiency from data ...

Whether implementing hot-aisle or cold-aisle containment, we are dedicated to delivering reliable, precisely fitted products. WindChill Engineering launched in 2012, building on more than four ...

NexGen can manufacture cold aisle containment solutions that focus cooling exactly where it's needed—within high-density server racks. We manufacture fully customized racks designed to ...

Effective aisle containment is critical to maintaining peak data center cooling efficiency. By creating a physical barrier between cold supply air and hot exhaust air, containment solutions prevent airflow ...

Sliding Doors offer data centers aisle-end containment in just minutes and without the need for contract labor. The one-tool design allows for quick and easy installation, removal, and re-installation with ...
