The latest innovation in home and commercial infrastructure is the Smart Panel Box (also known as an Intelligent Breaker Box). In this post, we''ll explore how this advanced technology moves ...

The application discloses an intelligent alarm distribution box, in particular to the field of distribution boxes, which comprises a box body, a box door arranged on the front side of the...

From decentralized energy, signal and data distribution to distribution boxes for smart buildings, we offer the right solution.

1. Introduction and Application Model□WTYJ-PD Product positioning Intelligent distribution box monitoring instrument, supporting real-time electrical data collection, energy consumption ...

The distribution box can adopt an intelligent control system to achieve remote monitoring, automatic alarm, timed switch and other functions, which can improve management efficiency.

By connecting security sensors, real-time grasp of the situation on the spot, more assured. Through the trigger of the sensor, the alarm message can be sent to the user through the mobile phone app, and ...
