Irish Air-Cooled Switch 400G

Irish Air-Cooled Switch 400G

Arista introduces the 7368x4 Series 400G data center network switch. This 400 Gigabit data center switch offers 4X increase in bandwidth density compared to existing 100G 1U switches.

The Mellanox MQM9790-NS2F features 64x400G NDR ports with OSFP connections and P2C airflow cooling. This unmanaged switch is optimized for reliable, high-performance data center networking ...

These connect to either 48 port switches or up to 576-port director switches. Cornelis makes the SuperNIC and switch ASIC for the ecosystem. The director class switch in this generation ...

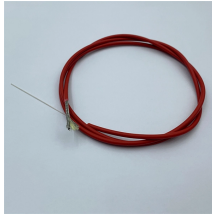

The NVIDIA Quantum-2-based MQM9790-NS2F switch comes with 64 400Gb/s ports on 32 physical octal small form-factor pluggable (OSFP) connectors that can be split to deliver up to 128 200Gb/s ...

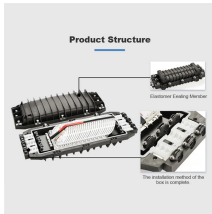

The NVIDIA Quantum-2-based MQM9790-NS2F switch comes with 64 400Gb/s ...

Both switches use the same Twin port, 2x400G OSFP plugs for transceivers, copper DACs and ACCs, and are only used in Quantum-2 and Spectrum-4 OSFP air-cooled switches. Twin-port devices ...

The S9300 series switch is a high-performance and high-density switch built on the cutting-edge 25.6T chip, with a single port supporting 400G transmission capability.

Asterfusion's 400G network switch stands out in the market with its sleek design concept, unique heat dissipation mechanism, minimal redundant fans, and on-board BMC.

High Density 50G/400G PAM-4 Capable Rugged Ethernet Switch Amphenol's Rugged 256 Channel Ethernet Switch Box is liquid cooled and configurable for system connectivity, speeds, port types, ...

The SSE-T8196 comes with 64 port 400G QSFP112 downlinks and 32 port 800G OSFP uplinks in a 3RU chassis. Depending on the Datacenter cooling options, SSE-T8196 switches come in support ...

ServeTheHome is the IT professional's guide to servers, storage, networking, and high-end workstation hardware, plus great open source projects.
