

Judicial Interpretation on Telecommunication Optical Cables

Judicial Interpretation on Telecommunication Optical Cables

Petitioners maintain that there is no rational basis to subject conduits enclosing coaxial cables to taxation, but exclude conduits enclosing fiber-optic cables, as both types of conduits perform ...

In a case applying what appears to be the majority rule, the Seventh Circuit held that an easement for power lines included the right to install lines for other purposes — in this case fibre ...

6 states and the District of Columbia have reached settlements with the telecommunication defendants as to compensation for the subject fiber optic cable installation. The moving plaintiffs seek ...

In some sense, everything a telecommunications carrier does—from laying fiber-optic cable to providing employees with healthcare benefits—is an activity in furtherance of, and thus a ...

Presumably, if Congress had disagreed with the court's statutory interpretation in NCTA, it would have amended the definitions of “cable operator” and “cable system” to make clear that Title VI franchising ...

For that reason, we rejected in *Kyllo* a “mechanical interpretation” of the Fourth Amendment and held that use of a thermal imager to detect heat radiating from the side of the ...

In June 2024, the U.S. Supreme Court decided *Loper Bright Enterprises v. Raimondo*, which, in overturning *Chevron* deference, expanded the judiciary's power to review and reject ...

That is, it is quite possible for an LFA to furnish a cable entrant with “a reasonable period of time to become cable of providing cable service to all households in the franchise area” yet still act ...

No one denies the Commission's authority to enforce laws requiring telecommunications companies like AT& T to protect sensitive customer data. But the Commission must do so consistent ...

In this diversity action, plaintiff Stephen West contends that the addition of a fiber optic communications wire to a utilities transmission tower on his property exceeds the scope of the ...

Certain pole-owning utilities challenged an FCC order that interpreted the Act to cover pole attachments for commingled high-speed Internet and traditional cable television services and ...
