Latest Fast Fiber Optic Connectors

Our FASTSPLICE™ fusion splice-on connectors are compatible with most popular fusion splicers, and our FASTCAM™ pre-polished connectors and FAST-CURE™ anaerobic adhesive style connectors ...

As technology advances, so do these connectors, enabling faster and more reliable connections. In this blog, we delve into the advancements in Fiber Optic Fast Connector technology, ...

Below, we explore the most widely used fiber optic connectors in 2025, highlighting their key features and advantages. SC connectors are widely used in data centers and ...

The latest fiber connector innovations are not just incremental — they represent a shift toward install speed, ease of maintenance, and improved long-term performance.

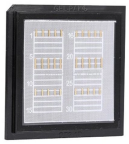

FASTConnect® connectors are compatible with 250 µm and 900 µm optical fibers, as well as 900 µm, 2 mm and 3 mm cordage. All primary fiber types are supported, and each connector is color coded per ...
