

Luxembourg supplier DAC high-speed cable DML

Luxembourg supplier DAC high-speed cable DML

With the features of the low cost, low power consumption and low latency, it is an alternative to optical transceivers for short reach links in high-speed interconnect applications such as Data Center, HPC ...

As a professional Direct Attach Cables (DAC) supplier, Our Direct Attach Cables (DAC) represent the ideal solution for short-distance, high-speed data transmission in modern networking environments.

A DAC high-speed cable is a type of high-speed cable designed for short-distance, high-speed data transmission. It features fixed connectors at both ends and transmits electrical signals directly ...

With today's growing demand for top-notch technology, high definition digital video and audio for entertainment and collaboration systems are now more important than ever. Belden is always on the ...

These cable assemblies support aggregate data rates of 25, 50, 100, 200, 400 and 800 Gbps. We offer custom cabling solutions and corresponding pluggable I/O cages and connectors.

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

The SFP+ passive cable assembly is an upgraded version of small pluggable (SFP) interconnections up to 10Gbps. The system complies with the SFF (SFF-8431 and SFF-8432) specifications and supports ...

Lumus Technologies Inc. meets this need with high-speed cables from 10GB to 1.6TB designed for low latency, top performance and energy efficiency to ensure your project runs smoothly.

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.
