This umbilical cable integrates fiber optics to ensure stable and high-speed data transmission. Custom umbilical cable with flexible order terms. Request a quote.

In 2018, Amokabel invested in a state-of-the-art production line dedicated to ROV and Umbilical applications, strengthening our ability to deliver advanced subsea cable solutions.

ROV cables are mainly used at depths down to 5000m for trenching, drilling, maintenance and repair. Nexans ROV cables are all designed and manufactured according to customer specifications.

Continued investment leads to ever-increasing capabilities, the industry's best people and ideas, and the world's most modern umbilical manufacturing facilities

APAR's experience in this specialised field of manufacturing helps us take care of both these requirements. We provide umbilical cables that have met all the necessary criteria from the ...
