

Monitoring Industrial Ethernet Switches

Monitoring Industrial Ethernet Switches

WAGO's switch portfolio provides scalable Ethernet network infrastructure with excellent electrical and mechanical performance. These rugged devices are designed for industrial use and are fully ...

PROmanage ® NT V2 enables you to evaluate, analyse, and store performance and condition data from your Industrial Ethernet networks and fieldbuses in the long-term to collect them in a central network ...

Discover how SCALANCE X208 managed switches and BUS ANALYZER XM modules enhance Ethernet diagnostics in industrial networks. Learn their strengths, limitations, and optimal use for ...

With their easy startup and the large number of versions, the managed switches of the 2000 and 5900 range of product ranges enable the cost-effective management of your Ethernet network.

Modern rugged industrial switches are equipped with advanced diagnostic features like SNMP (Simple Network Management Protocol), port mirroring, and traffic prioritization. Start by accessing the ...

In order to harmonize the different requirements of communication participants in an industrial network, managed switches from Weidmüller have extensive control mechanisms for data distribution and ...

Cisco Cyber Vision, part of Cisco Industrial Threat Defense, is a software solution built into Cisco industrial routers, Cisco Industrial Ethernet switches, and the Cisco Catalyst™ 9300 and ...

Managed, unmanaged and Power-over-Ethernet (PoE) IP20- and IP67-rated Industrial Ethernet Switches are robust and versatile, helping enable industrial automation and monitoring in challenging ...

Managed industrial switches are designed for this purpose. They include monitoring, diagnostic, and alerting tools that transform the network from a black box into a transparent, ...

Designed for easy connections, SCADA/HMI monitoring, and enhanced controllability, Moxa's Layer 2 smart switches support multiple industrial protocols such as PROFINET, Modbus, and EtherNet/IP, ...
