Mozambique Telecom Shelter Upgrade Installation Plan

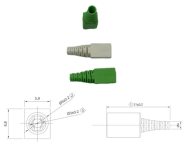

Overview

The initiative aims to extend telecommunications coverage to remote communities, advancing digital inclusion and reducing regional inequalities. The Communications Regulatory Authority of Mozambique (INCM), through the Universal Access Service Fund (FSAU), has announced plans to install 60 new mobile phone stations in rural areas across nine provinces — Gaza, Inhambane, Manica, Sofala, Tete, Zambézia, Nampula, Niassa, and Cabo Delgado. The. The project will be implemented by Vodacom Mozambique, S., the company awarded the contract through public tender no. These methods include the provision of basic materials for shelter construction, technical support, cash assistance, sensitization and promotion of safe shelter construction and installation of shelter practices, or a.
