Mozambique Waterproof Optical Cable Laying

Overview

Recently, 2Africa has successfully landed in Mozambique, Africa. As the world's longest submarine optical cable, it has been connected to MPM1, the facility of iColo, an East African data center company under Digital Realty. A first-of-its-kind data centre was also officially opened today by project partner, Master Power Technologies. The cable, recognized as the world's largest submarine system, brings a pivotal data center to the region, offering enhanced internet capacity. 2Africa, the largest submarine cable system in the world, which will interconnect Europe, Asia and Africa, officially reached Mozambique this week, on 15 August, in the city of Nacala-Porto. In a statement, the operator mentions that the ' 2Africa ', considered the largest submarine.
