N9020A Spectrum Analyzer Eye Diagram

	The analyzer gives preference to the band with the better overall specifications (which is the lower numbered band for all frequencies below 26 GHz), but will choose the other band if doing so is ...
	Service documentation for the N9020A MXA signal analyzer.
	What kind of measurements can these analyzers perform? The X-Series N9030A and X-Series N9020A perform traditional spectrum measurements along with advanced vector signal analysis.
	The number of points in the displayed spectrum for the Keysight N9020A is adjustable. It can be changed from 1,000 points (1 kpt) up to 10,000,000 points (10.0 Mpt).
	This book contains specifications and supplemental information for the Agilent MXA Signal Analyzer. The distinction among specifications, typical performance, and nominal values are described as follows.
