# Nighttime Fiber Optic Management in Computer Rooms

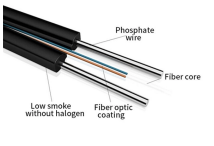

## Overview

Let's examine the specialized techniques and components needed to properly organize, route, and protect fiber optic cables in server rack environments. For IT managers and technicians, mastering the art of cable organization is not just a matter of aesthetics—it's a fundamental. The Relevance Inspector will open in the Coveo Administration Console. The easy design, easy to configure, easy to install cable management system provides a dedicated path for critical network cabling. Its integration is a cornerstone of data center design and construction, influencing layout.
