Aerial & Direct Burial Fiber Optic Cable Enclosure with Fiber Splice Tray for Splicing with Fusion splicer with Fusion Splice Sleeves 60mm (Mechanical 96 Strand)

Splice trays are designed to hold individual or mass fusion spliced fibers. These trays are typically installed within fiber optic enclosures and patch panels. They''re compact, lightweight, and available ...

The trays are engineered for use with indoor or outdoor splice hardware with both loose tube and tight-buffered optical cable designs. The metal-tray series consists of a rugged aluminum base and cover ...

In some locations like midspan joints, fiber cables pass through an ODF/Splicebox where no splicing to other cables is carried out. In these scenarios, fibres are connected to NO-SPLICE patch points in ...

The Apex® X-2 is a sealed splice closure designed for protecting optical fiber splices in both above- or below-grade applications in a butt configuration.

The trays are engineered for use with indoor or outdoor splice hardware with both ...
