OPPC optical cable suspension clamp

This is a type of self-supporting optical fiber cable that does not require any kind of support in distributing electricity from one point to another. As much as they may be independent, these cables are usually ...

Rax Industry has successfully developed unique designs of ADSS/OPGW accessories, which replace the old suspension clamp, NLL tension clamp, and UT & NX clamp. Rax Industry ADSS/OPGW ...

The fiber suspension clamp has a large contact area with the optical cable, uniform stress distribution, no stress concentration point, and at the same time enhances the rigidity of the optical cable at the ...

Main products of the YOFC Company are Helical Tension Set, Helical Suspension Set for OPGW or for ADSS cable and OPPC, Connect Fittings, Optical Fibre Joint Box, Vibration Dampers, Protecting ...

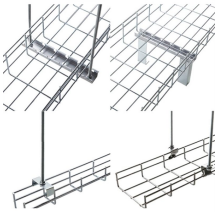

Suspension clamp (single): The design of single layer pre-twisted wire not only meets the needs of long-term stability and reliability, but also provides economical engineering solutions for users.

Our RIBE-OPTOFIT® accessories offer the ideal solution for connecting fiber optic overhead cables and terminating the optical signal, and per-fectly complement proven RIBE-OPTOFIT® fittings.

ADSS AccessoriesOptical Distribution FrameOptical Termination BoxOutdoor Splicing BoxAny Other Required AccessoriesConclusionRe-enterable four-way water-proof and air-tight (at least up to 1 m depth of water) closure are supplied for different sizes of optical fiber Cables. The outdoor splicing box is a dome type. The closure is made of materials that are fire and chemical resistant and are mechanically strong (not break or deform when falling from a height of at least 5...See more on powertelcom p>.news_dt{color:#767676}yofc

OPPC suspension set Suspension Clamp For Fiber Optic Cable No reviews yet Hebei Fuwei Electric Co., Ltd. 5 yrs

OPPC Hardware Fittings Tension clamp for OPPC Suspension Clamp for OPPC Cable storage Joint Box for OPPC

Optical Phase Conductor (OPPC) insulators are designed to splice the optical fibres of the energised OPPC with fibres of a metal free fibre optic cable which can be connected to a cabinet in the substation.

	OPPC is a new pattern of electric power cable. If the stressed area of OPPC is too small, this will lead to a deformation of optical fiber stainless steel, and affect the optical fiber communication.
