

One-fiber-multiple-current switch

One-fiber-multiple-current switch

We produce a wide range of turn-key fiber optic switch systems that integrate fiber components with electronics, firmware, with all computer/internet interface formats having user-friendly graphics ...

These fiber switches offer a cost-effective way to provide flexibility in optical network connectivity. Applications include optical protection, optical channel monitoring, remote fiber test systems ...

The TC3705 offers one multimode (1300nm) or single mode (1300/1550nm) optical port and four Ethernet 10/100Base-T Auto-Sensing switched ports. Each of these ...

OZ Optics now offers turnkey rack mountable optical switches with built-in electronics and color touch screen. The switch is offered in a 1x4 to 1x36 configuration. It can be customized with 2 independent ...

The switch allows users to utilize a single piece of test equipment to seamlessly cycle through all of the fibers in a connector regardless of polarity without having to disconnect and reconnect your test ...

Search DigiKey's expansive product index to find detailed product information and pricing on millions of in-stock products. We get technical, so you can search with confidence!

Discover the key differences between single-mode and multi-mode fiber optical switches. Learn about their applications, performance, and which one is best for your network needs.

A guide to single-mode vs multimode SFP modules. Covers fiber types, wavelengths, distances, BiDi, CWDM/DWDM, SMF vs MMF selection, and application scenarios.

The TC3705 offers one multimode (1300nm) or single mode (1300/1550nm) optical port and four Ethernet 10/100Base-T Auto-Sensing switched ports. Each of these ports supports either 10Base-T ...

The LevelOne FEU-0511 is a compact 5-port Fast Ethernet switch with an integrated media converter, designed to bridge copper and fiber networks in small offices, industrial sites and remote locations.

OmniConverter compact ethernet switches feature one or two fiber ports and up to eight 10/100/1000 copper ports for fiber distance extension to network edge devices. OmniConverter compact switches ...
