

Optical Module 1 5

Optical Module 1 5

The M-SP-1.5 Precision Ground, Stainless Steel Optical Post is 12.7 mm diameter with a length of 38.1 mm. It has an M4 tapped hole in one end and an M6 tapped hole in the other end.

Rock Module 1.5 micron - Laser from NP Photonics, Inc.. Get product specifications, Download the Datasheet, Request a Quote and get pricing for Rock Module 1.5 micron on GoPhotonics.

Get product specifications, Download the Datasheet, Request a Quote and get pricing for Rock Module ULTRA 1.5 micron on GoPhotonics.

XG-SFP-LR-SM1310 10GBASE-LR SFP+ 1310-nm 10-km DOM Duplex LC SMF Optical Transceiver Module Applicable to data center and campus networks, enabling cost-effective, efficient, and high ...

SFP (Small Form-factor Pluggable) optical modules are compact, hot-pluggable transceivers that enable network equipment to connect seamlessly to fiber and copper links. These ...

1×N MEMS Optical Switch Module Features
Compact Structure Fast Switching Time Low
Insertion Loss

Explore the classification of optical modules based
on transmission rate, package ...

Reliable Materials: The aperture diaphragm is
made of aluminum alloy and stainless steel, strong
and sturdy, very reliable in performance. Highly
Stable: This diaphragm is light weight, will not ...

Explore the classification of optical modules based
on transmission rate, package type, mode, central
wavelength, and color. Learn about common
causes of optical module failure and protective
measures.

CGOA-1.5 - Optical Amplifier from BKtel Photonics.
Get product specifications, Download the
Datasheet, Request a Quote and get pricing for
CGOA-1.5 on GoPhotonics.

High Power version, up to 5 Watts of overall optical
output power of Optical Amplifiers in module
format. Ultra-High Power Optical Amplifiers enable
more than 10 W of optical power.
