

Portable RoHS Component Spectrometer

Portable RoHS Component Spectrometer

The instrument is small, light and portable, providing on-site and in-situ analysis when-ever, where-ever, and what-ever you decide to analyze. High resolution PDA, coupled with mini multi-channel analyzer ...

Vanta handheld XRF analyzers are used to ensure compliance with RoHS and local or international regulatory laws. Vanta analyzers provide on-the-spot chemical analysis of consumer products to ...

Genius Handheld XRF Spectrometer features rapid non-destructive elemental identification and composition analysis with SDD Detector for precise detection of any element from Magnesium to ...

TrueX utilizes anti-slip, abrasion resistance and streamlined design, which is light and easy to carry. It also integrates the new high speed digital multi-channel technology, the new library grade base ...

TrueX utilizes anti-slip, abrasion resistance and streamlined ...

Discover the pinnacle of handheld analysis with our XRF And XRD Analyzer series. From the TrueX Handheld XRF Analyzer to the PeDX Handheld XRF Analyzer and the ScopeX RoHS Analyzer, our ...

Handheld XRF spectrometer, HD Mobile ® extends the superior HDXRF standard for compliance out of the lab and into many different work environments with portable xrf.

Fast on-site elemental analysis: The SPECTRO xSORT handheld XRF is the ideal analyzer for compliance testing and quick screening of non-metallic samples.

Leading manufacturer of XRF spectrometer to offer elemental analysis solutions include: XRF gold tester, handheld XRF metal alloy PMI analyzer, handheld XRF mineral analyzer, portable sulfur in oil ...

The handheld RoHS spectrometer used for consumer products and RoHS compliance supervision projects is a convenient and portable XRF analyzer that can provide error free pass/fail results within ...
