Once you have selected all of your items by clicking the “Add to Quick Quote” buttons you can view your quote to make sure you have everything you need. Next, enter in your contact information and you ...

We will be happy to prepare a quote for FTIR, NIR or Raman spectrometer or microscope tailored for your purposes. If you are interested, just fill in the contact form and we will get back to you.

An optical spectrometer is an instrument used to measure the properties of light over a specific portion of the electromagnetic spectrum, typically to identify the intensity of different wavelength components.

The gold standard field-portable UV/Vis/NIR/SWIR spectroradiometers for the fastest and most accurate spectral field measurements.

Prices differ by region due to shipping and handling costs and taxes and duties, which affect the final price. Larger regions with advanced technology also tend to produce more expensive NIRs.
