Pricing Table for Mobile Optical Cable Installation

Overview

On average, commercial projects range from $5,000 to $20,000 per mile underground and $40,000 to $60,000 per mile for aerial deployment. Individual business connections often cost between $15,000 and $30,000 for 100–200 network drops. Fiber-optic cable pricing depends on whether you're purchasing materials alone or including complete installation. 52 per foot for wholesale bulk purchases, or $1 to $6 per foot at retail. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. This guide presents ranges in USD and practical price estimates to help. Here is the 2026 benchmark for cost of laying fiber optic cable per foot by method: Open trench (lawn/field): $0. 80 per ft – fastest, lowest cost. Directional boring (road crossing, driveway): $3.
