

Qualification for laying surveillance fiber optic cables

Overview

The Certified Network Cable Installer (CNCI ®) has become the industry preferred certification for network cable installation and is specified as a requirement on many job profiles and installation project contracts. FOA certifications are designed to show a progression of growth in knowledge, skills and abilities (we refer to them as KSAs) in fiber optics. The CFOS certifications are specifically designed to allow schools to offer specialized classes for students who have already achieved CFOT status or who.
