

Revit cable trays cannot be labeled

Overview

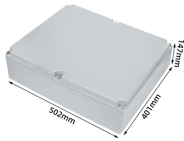

Click Systems tab Electrical panel Cable Tray. On the Options Bar, specify the width, height, offset, or bend radius. On the ribbon, verify that Tag on Placement is selected to tag the cable. I'm working with cable trays on Revit MEP 2017 and i have to draw a cable tray running at high level above the selected view range. In previous versions of Revit i would simply create a plan region over the cable tray, nominate it's unique view range and it would show up - however in this instance. BIM objects - Free download! Cable Trays and Horizontal Racks | BIMObject Connect your model to generate a building LCA directly from Revit and understand the impact of choosing one material over another. com Design App Load BIM objects straight into Revit in 1 click. more. Welcome ! Discover Autodesk Revit's RVT format for our T&B cable tray BIM files. With its intuitive interface and robust features, Revit streamlines design, offering enhanced customization. Access and download T&B cable trays Revit files for free now! Find and download Intergraph Smart 3D CAD VUE files for. It works well for familytypes like switches or powerplugs but not with system-familys like cabletrays or pipes. 6 KB) The output on the legend-view is like this: The cabletrays in my modeling view have different linetypes and colors.

The legend view use the same view template.
