

Saudi Arabia completes fiber optic cable installation

Overview

By 2026, this corridor will connect Saudi Arabia and Oman with redundant terrestrial networks, enhancing subsea routes and providing hyperscalers and telecom operators with a secure, high-capacity backbone. The first phase is on track to be completed in 12 months, and the full. Saudi Arabia's Vision 2030 is an unparalleled national transformation, pivoting the Kingdom towards a diversified, knowledge-based economy. While megaprojects like NEOM, The Line, Oxagon, and Trojena capture global attention, their very existence and functionality are predicated on an equally. Governor of the Communications, Space and Technology Commission (CST) Dr. 78B SONIC corridor, a stc-Ooredoo joint venture, will connect Asia-Europe via fiber optics by 2026, boosting global data traffic. The program includes the Fiber Optics Project, which delivers fiber optic cables to all houses in target neighborhoods with the goal of reaching 88% coverage in high-density neighborhood; an objective. Sources cited by Middle East Eye indicate that Saudi Arabia is considering redirecting the route of its fiber optic cable connecting the country to Greece to pass through Syria instead of Israel, as initially planned.
