

## Speed test results for a 100Mbps fiber optic router

### Overview

Check your Wi-Fi and internet performance with our free fiber speed test. Quickly measure upload, download, ping & jitter, understand what your results mean, and compare to top fiber speeds. Test your connection and compare it with the speeds you'll get from our 100% fiber-optic plans. Download — Measures how quickly data transfers from outside sources to your device. How Much Speed Do You Need?

© 2006-2026 Ookla, LLC. All trademarks of Ookla, LLC, including Speedtest®, are used under license. This test is suitable for fixed (aDSL, cable, fiber, satellite) and mobile (2G, 3G, 4G LTE, 5G) connection technology. Need own custom app?

Speed test results over a wireless connection are always lower than plan speeds due to many factors like device capabilities, distance, obstructions, and other devices online. If you absolutely must run the test over a Wi-Fi connection, make sure you're connected to the 5 GHz or 6 GHz band if your plan is faster than 200Mbps. Most gateways, routers, and mesh systems now.
