Sultan Explosion-proof Distribution Box Dimensions and Specifications

Overview

An explosion-proof distribution box helps protect electrical systems in hazardous environments. Sparks or overloads can damage equipment and put people at risk. Downtime can also disrupt daily operations. Flameproof enclosure (Ex d IIB+H2), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) ·Enclosure: stainless steel. These explosion proof junction boxes / terminal boxes, plugs, sockets & connectors are for use in explosive atmospheres in compliance with the ATEX 94/9/EC Directive and IEC Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients' requirements for CONTROL explosion-proof and flameproof enclosures. All explosion-proof enclosures, lighting or power distribution boxes are manufactured using the latest technologies, both mechanical and. We are India's leading manufacturer, supplier, and exporter
