Taiwanese laser diode manufacturing location

Overview

Diodes' Hsinchu site, a wafer fabrication facility located in the Hsinchu Science Park, has been a key part of Diodes' global network since November 2020. As a major optoelectronics device supplier, we provide a total solution for optoelectronic devices by integrating ASICs, micro-optical, precise mechanical, and real-time information management. Arima Lasers Corporation is one of the largest manufacturers of optoelectronic components in Taiwan. The company covers the entire production chain; from epitaxy and component manufacturing to packaging, testing and module assembly. The. TSMC continues to enhance Total Quality of local industries and recognizes outstanding suppliers at Taiwan Continuous Improvement Awards (TCIA). The TSMC Charity Foundation defined four key focuses, according to TSMC's Corporate Social Responsibility Policy and UN Sustainable Development Goals, we. Megaforce MedTech is a specialized manufacturer of medical devices, employing advanced technologies such as UV curing adhesives and various molding techniques.
