

Terminal block cover for three-level distribution box

Terminal block cover for three-level distribution box

Our Product Cut Sheets cover a single part number. They are typically used after the system design is complete and the BOM is finalized. The cut sheets only provide high level information and are helpful ...

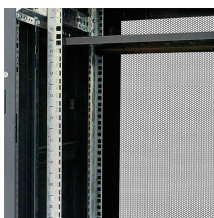

Bulletin 1492 Power Distribution Terminal Blocks use standard cross connections to allow power distribution to any number of terminals.

The clear plastic cover is used to cover the terminals of a power distribution. This cover is designed for a three pole 9080LBA363 or 9080LBC363 block.

This line also includes a direct mount block that can be panel or track mounted. Standard track comes in common lengths and break-off styles. All blocks are UL component recognized and CSA approved.
