The Tonga–Fiji Submarine Cable Project will invest in a new submarine fiber optic cable link to the Southern Cross Cable Network (SCCN) in Fiji. This will provide a substantially higher initial capacity ...

Tonga Cable System is a submarine fiber-optic cable system connecting Tonga with Fiji, where it connects to other international networks. It is 827 kilometres (514 mi) long and was activated in 2013.

It was determined that building a connection to Fiji to interconnect with the existing Southern Cross cable was the best option to achieve regional and global connectivity from Tonga.

Tonga Cable Ltd marked its 10th year anniversary celebration with a Grant signing for the second Fiber-optic International Cable for Tonga, that will be installed through Vava''u.
