

Tunable optical module low-temperature resistant imported

Tunable optical module low-temperature resistant imported

Finisar's Flextune tunable optical transceiver modules are used in enterprise and datacenter networks. View price, stock and buy direct from Transceiver USA.

The Lumentum tunable SFP+ module is a high performance tunable pluggable transceiver for use in the C-band window covering 1528 nm to 1566 nm. The ...

The tunable SFP+ optical transceiver is a full duplex serial electric, serial optical device with both transmit and receive functions contained in a single module that provides a high-speed serial link at ...

This SFP+ Tunable Optical Transceiver Module has a data of 1.25 ...

Optoplex's Tunable Optical Filter, also known as Optical Tunable Filter or Tunable Bandpass Filter, is an integrated module, consisting of micro optics and electronics.

Easy Integration: Comes equipped with control software that makes this tunable filter ready-made for advanced fiber-optic systems requiring precise tuning and excellent sideband suppression.

We produce a wide range of single-mode (SM), multimode (MM), and polarization-maintaining fiber (PM) fiber coupled tunable filters with industry-leading performance and value.

40nm Tunable Laser Module Model: OC3XX Series Features 14 PIN Butterfly Package Optical output power 10 mW

NEC's Tunable SFP is an optical transceiver that allows wavelength change and contributes to the WDM of the network. It reduces the complexity of wavelength management and inventory management, ...

This SFP+ Tunable Optical Transceiver Module has a data of 1.25 G or 100 G, a wavelength of 1270 nm to 1550 nm, and a voltage of 3.3 V.

Finisar's Flextune tunable optical transceiver modules are used in enterprise and ...

The Lumentum tunable SFP+ module is a high performance tunable pluggable transceiver for use in the C-band window covering 1528 nm to 1566 nm. The module supports data rates from 9.95 Gbps to ...

operable with all OEM platforms. We're the first optics manufacturer in the Western Hemisphere to invest in high-speed robots, allowing us to scale our operations to handle virtually any order, large or ...
