Two Sessions Fiber Optic Cable to Mauritius

Overview

The South Africa Far East (SAFE) cable is a 13,500 km optical fiber submarine cable linking South Africa, Mauritius, La Réunion, India and Malaysia, ready for service in April 2002. The SAFE cable system consists of two fiber pairs, with an initial design capacity of 10Gbps . At Electrum, we offer a wide range of cutting-edge telecom solutions designed to meet your unique future needs and challenges. Founded in 2011, we specialize in turnkey infrastructure. Our core business is the manufacture and provision of passive FTTH products and accessories for the domestic market, Indian Ocean Islands and the Eastern Seaboard of Africa. Bharat Telecom Ltd, the pioneer of Fibre Optic technology in Mauritius was incorporated in 2010. We launched our products and services in October 2012 using our own fibre cables.
