Univ optical module

Univ optical module

The 40GBASE-UNIV QSFP+ Optical Transceiver is designed for use in 40GBASE Ethernet throughput up to 150m over OM3 multimode fiber (MMF) or 2km over single mode fiber (SMF) using a ...

Our Arista QSFP-40G-UNIV compatible transceiver uses a high-quality DFB Laser transmitter operating at 1310 nm nominal wavelength and a 1310 nm PIN Photodiode receiver. This module supports ...

40GBASE-UNIV (Universal) is a type of 40G QSFP+ optical module that can operate over both multi-mode and single-mode fiber using a standard duplex LC connector.

This product is a transceiver module designed for optical transmission ...

The QSFP+ module is designed for use in 40GBASE Ethernet throughput up to 150m over OM3 multimode fiber (MMF) and 2km over single mode fiber (SMF) using a wavelength of 1310nm via ...

Our Arista QSFP-40G-UNIV compatible transceiver uses a high ...

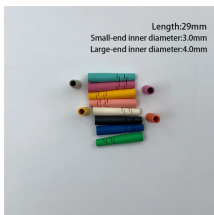

The Arista QSFP-40G-UNIV is a 40G universal QSFP+ optic that facilitates high-speed data transmission. It is compatible with both multimode fiber (MMF) and single-mode fiber (SMF).

With its compact form factor, this optical transceiver can easily be installed in space-constrained environments without reducing performance. Its universal design allows seamless integration into ...

The QSFP-40G-UNIV QSFP+ Optical Transceiver Module is designed for use in 40GBASE Ethernet throughput up to 150m/2km over OM3 multimode fiber ...

This product is a transceiver module designed for optical transmission applications over both MMF and SMF with transmission distances of up to 150m on MMF (OM3) and 2km on SMF.

Discover the differences between 40G BIDI SR, 40G SR4, and 40G UNIV modules. Explore their compatibility, transmission modes, and fiber types for optimal performance in your 40G ...

The QSFP-40G-UNIV QSFP+ Optical Transceiver Module is designed for use in 40GBASE Ethernet throughput up to 150m/2km over OM3 multimode fiber (MMF)/single mode fiber (SMF) using a ...

The Arista QSFP-40G-UNIV is a QSFP 40GbE transceiver with a duplex LC connector that can be used with both multi-mode (MM) and single-mode (SM) fiber. It has 4 channels of 10G multiplexed inside ...
