Voltage-segmented small busbar switch

Special busbar systems for all electrical connections in switchgear, control cabinets and low-voltage systems.

SIPROTEC 7VU68 - High speed busbar transfer device (phase-out product) 8xI 8xV, single busbars with 2 or 3 CBs The SIPROTEC 7VU683 high speed busbar transfer (HSBT) device is a compact ...

Our busbar systems for electrical installations offer a particularly easy way of fitting distribution systems with electrotechnical components. The modular design saves space, while quick assembly contacts ...

Safety The individually screened busbar compartments, apparatus and cable spaces minimize the risk for unintentional contact with live parts. Operating handles and knobs are located on the outside and ...

The compact solution HSBT 7VU683 is designed to fit for the primary diagrams of single busbar (2 CBs) and segmented single busbar (3 CBs). It has incorporated the traditional HSBT philosophy.
