

What do the colors of cable trays in CAD represent

Overview

Depending on which end of the cable you're looking at, you can read the colors clockwise or counterclockwise from the center black conductor. Let's say you cut your cable and see this series of colors: black, white, red, green, orange, and blue, in that order and in a consistent. Is there a way that I can change the colors of 3 different cable trays to 3 different colors that will still display when I export to navisworks?

06-30-2022 07:11 AM Hi. The filter setting is the only option on Revit. CAD Architect is a worldwide CAD resource library of AutoCAD Blocks, Details & Drawings for Architects, CAD draughtsman & other related building industry professionals. Copyright (c) 2008 -. Hull Lines (Hull Lines - Body Plan View) 2. Need a custom color code produced?

Let us know, and we will get it done.

What do the colors of cable trays in CAD represent

Each cable tray is labeled with the corresponding name and elevation value from the model. For an example, see the above graphic. Horizontal dimensions are placed on vertical cable trays, while ...
