What is a black fiber optic cable terminal box

Overview

It is used to interconnect fiber splices and terminated fiber cables. The unit comes with four splice sleeves, one cable grommet, four pairs of screws to secure the couplers in place, cable ties, cable management and mounting hardware. This fiber optic terminal box has a latching top for easy access and accepts up four SC simplex or four LC duplex panel mount couplers. It is the connection point between your Internet Service Provider's (ISP) network. A Fiber Termination Box, also known as a Fiber Distribution Box, is a crucial component in fiber optic networks.
