

Which fiber optic router is the best to buy

Overview

To find the best router for fiber internet, we used our expertise to select items based on key specs, such as speeds, coverage, wireless standards, security, weight, and additional features. We conduct in-house testing to check their signal strength, speed, and file. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. Routers for Fiber Optic Internet are designed to help you take full advantage of your high-speed connection, delivering a seamless online experience for streaming, gaming, working, and more. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. In this guide, I'll share my hands-on experience with the top routers that maximize fiber performance without breaking the bank.
