

Zhen an Fireproof Cable Tray

Zhen an Fireproof Cable Tray

Our premium, intumescent latex/water-based caulk. This is an affordable firestop caulk that helps you stay on budget. Its unique intumescent property allows IC 15WB Caulk to effectively contain fire and ...

Its innovative two-part design installs easily around non-compliant cable tray penetrations, rapidly restoring fire resistance. Ideal for retrofit environments, the EZ Path Cable Tray Retrofit Device ...

Fire Rated Cable Trays that are crafted from premium materials like stainless steel, galvanized steel, tempered glass, and fire-resistant polyester fiberglass. Each tray is coated with a specialized fire ...

We accept all OEM orders, just contact us, send me your design, we will give you a reasonable price as soon as possible.

Need a Fire-Rated Cable Tray Supplier? Find solutions for safe, compliant cable systems that protect during a fire.

The Daken Fire-Resistant Cable Tray (DFCT) is a new-generation cable protection system that integrates fire resistance, structural load-bearing capacity, and ventilation into one single solution.

They are made of a steel frame coated with fire-resistant paint or composite fire-resistant panels. Under high temperatures, they form a heat-insulating char layer that prevents the spread of fire.

It is wrapped around the exterior of the cable tray and held in place with steel banding straps. Additional weather protection can be installed if required using corrugated aluminium sheeting.

Build fire-rated enclosures around tray runs, transitions, and penetrations to block flame and smoke movement. Integrate coverings with existing fireproofing and firestopping systems for full compliance ...

This construction provides low thermal conductivity, flame resistance, and excellent corrosion resistance, making them suitable for use alongside metal trays in demanding environments such as ...
